WORK EXPERIENCE

Frontend Developer

Real Game Athletics

2019 – 2021 / Remote

- Collaborated with client to create comprehensive wireframe designs.
- Developed an accessible, responsive, and feature-rich user interface, enabling seamless user experience across all devices and ensuring optimal usability.
- Assumed responsibility for the acquisition of the domain and server.
- Demonstrated proficiency in updating the website with fresh and relevant content, promptly fulfilling client requests and ensuring the website remains up-to-date

PROJECTS

Digital Cookbook

[link](#) - [code](#)

- A full-stack web application that allows users to organize and plan their recipes.
- Developed using React and Next.js for building serverside rendered and statically generated applications.
- Implemented a intuitive user interface harnessing the power of reusable components and state management to create dynamic and interactive recipe management features.
- Designed the schema and implementation of RESTful API routes to retrieve data from MongoDB.
- Styled using Tailwind.css to ensure responsive design and compatibility with all devices.

Shopping Cart

[link](#) - [code](#)

- E-commerce website prototype encompassing a visually appealing landing page, comprehensive product lists, and an efficient shopping cart system.
- Uses a dynamic state to track users cart, and give real time information on total price of items.
